

GUIDELINES FOR BARBERS AND COSMETOLOGISTS

- Maintain physical distancing, to the extent possible
- Provide and require employee(s) to wear masks when possible
- For salon treatments that require touching someone's face, provide and require employee(s) to wear gloves when possible
- Provide access to soap and water for handwashing or an alcohol-based hand sanitizer for use by employees and clients. Require employees to wash hands immediately before and after providing client service
- For treatments/appointments that don't require touching the client's face, clients should be encouraged to wear masks for their protection
- Wipe any pens, counters, or hard surfaces between use or customer
- Operate by appointment-only to manage occupancy levels
