

COVID-19 UPDATE #3

The JRR park management team and the BOD are in discussion on how we continue to address the safety of our JRR residents during this unusual time. We know that many of you are concerned and we want to keep as many of our current park activities available for everyone as we safely can. To that end, it is crucial that we all practice the guidelines that the CDC has recommended and that we currently have in place for all of our existing activities.

- Social distancing -- 6+ feet
- Wearing masks, especially when social distancing is not possible
- Frequent and vigorous hand washing
- Only gathering in small groups
- Wiping surfaces with disinfectant
- Wearing masks anytime we are in the Park Admin or Business Center buildings

We will continue to monitor the situation here in the park and should the situation change, we will notify you. Please be aware that this situation is fluid and dependent upon all of us doing our best to keep each other safe.

Please be kind to and supportive of each other as we work together through this difficult time.

Brian Couvillion
President – JRR HOA
